EDUCATION

Bachelor of Science: Game Development and Design

Aug 2021 – May 2026

Purdue University, Purdue Polytechnic Institute, West Lafayette, IN

- Graduated with a Bachelor of Science degree in Game Development and Design
- Certificate in Python Programming; Spring 2024

PROJECTS

Gosh Jam It (PvP Online Multiplayer FPS)

Aug 2025 - Present

HighNoon Studios LLC

Gameplay designer, level designer, and co-manager,

- Created and designed the 'Big Dylan's Dynamite Factory' PVP map, with a new and unique dynamite throwing mechanic.
- Led a team of 14 members to ensure timely and high-quality completion of tasks and milestones.
- Conducted continuous playtesting leading to improved player enjoyment, removal of harmful bugs, and perfecting the gameplay loop

21 Ways to Die (Horror Action)

Mar 2025 - Present

Overdrive Game Studios LLC

Director, gameplay designer, level designer, and creator

- Directed, designed, and created a comprehensive game development project, ensuring seamless execution from concept to completion.
- Designed and implemented innovative interesting puzzles and creative levels throughout the game.
- Created master game design, character, story, and other documents to help the rest of the team.
- Led and directed a team of 15 volunteers, while solving problems that arose

SKILLS

Game Specific Skills: game design, gameplay design, level design, design documents, gameplay testing, Unreal Engine 5, 3D modeling

Other Skills: creative problem solving, communication, collaborating, growth mind set, directing, managing, recruiting

PROFESSIONAL EXPERIENCE

Created Level Design Workshop

Apr 2026

- Taught freshmen and sophomores how levels are created and what designers need to remember when creating great levels
- Gave students real time feedback and constructive criticism on their levels and levels in modern games

Created System Design Workshop

Apr 2026

- Helped support my two system designers with my knowledge of gameplay design
- Taught students about what system design is, how to create good systems, and created a gameplay mechanic for students to work out the logics of that system.

Founded Game Developers Network

Mar 2026

- Worked with fellow students to create a club that supports and teaches Purdue game development students more outside of class.
- Founded the club, collaborated with industry professionals to guest speak, led and designed two game design workshops.

P3

Mar 2026

- Purdue's big gaming showcase for students
- Worked tirelessly for months to create my own game (21 Ways to Die) and present it

New Scene Game Jam

Sep 2024

- Game designer on our small 4 person team that created our 2 player puzzle game: Square Knot.
- Designed 6 levels and play tested the game to improve play enjoyment

WORK EXPERIENCE

Host

Jul 2023 - Aug 2025

The Cheesecake Factory

- Greeted and seated guests promptly, managed the dining flow efficiently while providing exceptional customer service in a high-volume fast paced restaurant environment.
- Communicated with my coworkers to make sure customers' needs were quickly met

Front End Staff

Jun 2021 - Aug 2021

Lakeside Recreation Center

- Manages day-to-day operations, ensuring a clean and organized space for kitchen and arcade areas while assisting customers with their needs.
- Coordinated with management in order to make sure tasks were done efficiently and effectively
